 - (c) The enlargement, alteration, replacement or relocation of any building system; or
 - (d) The removal from service of all or part of a fire protection system for any period of time.
- C. Exemption not deemed authorization to perform noncompliant work. The exemption from the requirement to obtain a building permit for work in any category set forth in Subsection B of this section shall not be deemed an authorization for work to be performed in violation of the Uniform Code or the Energy Code, the Zoning Code or other general or local law, ordinance, rule or regulation.
- D. Applications for building permits. Applications for a building permit shall be made in writing on a form provided by or otherwise acceptable to the Code Enforcement Officer. The application shall include or be accompanied by the following information and documentation:

 - (2) A description of the proposed work;

§ 78-4 FIRE PREVENTION AND BUILDING CODE ADMINISTRATION § 78-4

- (3) The Tax Map number and the street address of the premises where the work is to be performed;
- (4) The occupancy classification of any affected building or structure;
- (5) Where applicable, a statement of special inspections prepared in accordance with the provisions of the Uniform Code; and
- (6) At least two sets of construction documents (drawings and/or specifications) which:
 - (a) Define the scope of the proposed work;
 - (b) Are prepared by a New York State registered architect or licensed professional engineer where so required by the Education Law;

 - (e) Where applicable, include a site plan that shows any existing and proposed buildings and structures on the site, the location of any existing or proposed well or septic system, the location of the intended work, and the distances between the buildings and structures and the lot lines.

E. Construction documents. Construction documents will not be accepted as part of an application for a building permit unless they satisfy the requirements set forth in Subsection D(6) of this section. Construction documents which are accepted as part of the application for a building permit shall be marked as accepted by the Code Enforcement Officer in writing or by stamp. One set of the accepted construction documents shall be retained by the

Code Enforcement Officer, and one set of the accepted construction documents shall be returned to the applicant to be kept at the work site so as to be available for use by the code enforcement personnel. However, the return of a set of accepted construction documents to the applicant shall not be construed as authorization to commence work, nor as an indication that a building permit will be issued. Work shall not be commenced until and unless a building permit is issued.

- F. Issuance of building permits. An application for a building permit shall be examined to ascertain whether the proposed work is in compliance with the applicable requirements of the Uniform Code and Energy Code. The Code Enforcement Officer shall issue a building permit if the proposed work is in compliance with the applicable requirements of the Uniform Code and Energy Code.
- G. Building permits to be displayed. Building permits shall be visibly displayed at the work site and shall remain visible until the authorized work has been completed.
- H. Work to be performed in accordance with construction documents. All work shall be performed in accordance with the construction documents which were submitted with and accepted as part of the application for the building permit. The building permit shall contain such a directive. The permit holder shall immediately notify the Code Enforcement Officer of any change occurring during the course of the work. The building permit shall contain such a directive. If the Code Enforcement Officer determines that such change warrants a new or amended building permit, such change shall not be made until and unless a new or amended building permit reflecting such change is issued.
- I. Time limits. Building permits shall become invalid unless the authorized work is commenced within six months following the date of issuance. Building permits shall expire 12 months after the date of issuance. A building permit which has become invalid or which has expired

§ 78-4 FIRE PREVENTION AND BUILDING CODE ADMINISTRATION § 78-5

pursuant to this subsection may be renewed upon application by the permit holder, payment of the applicable fee, and approval of the application by the Code Enforcement Officer.

- J. Revocation or suspension of building permits. If the Code Enforcement Officer determines that a building permit was issued in error because of incorrect, inaccurate or incomplete information, or that the work for which a building permit was issued violates the Uniform Code or the Energy Code, the Zoning Code or any other general or local law, ordinance, rule or regulation, the Code Enforcement Officer shall revoke the building permit or suspend the building permit until such time as the permit holder demonstrates that all work then completed is in compliance with all applicable provisions of the Uniform Code and the Energy Code and all work then proposed to be performed shall be in compliance with all applicable provisions of the Uniform Code and the Energy Code.
K. Fee. The fee specified in or determined in accordance with the provisions set forth in § 78-16, Fees, of this chapter must be paid at the time of submission of an application for a building permit, for an amended building permit, or for renewal of a building permit.

§ 78-5. Construction inspections.

- A. Work to remain accessible and exposed. Work shall remain accessible and exposed until inspected and accepted by the Code Enforcement Officer or by an inspector authorized by the Code Enforcement Officer. The permit holder shall notify the Code Enforcement Officer when any element of work described in Subsection B of this section is ready for inspection.
B. Elements of work to be inspected. The following elements of the construction process shall be inspected, where applicable:

 - (7) Fire-resistant penetrations;
 - (8) Solid-fuel-burning heating appliances, chimneys, flues or gas vents;
 - (9) Energy Code compliance; and
 - (10) A final inspection after all work authorized by the building permit has been completed.
- C. Inspection results. After inspection, the work or a portion thereof shall be noted as satisfactory as completed, or the permit holder shall be notified as to where the work fails to comply with the Uniform Code or Energy Code. Work not in compliance with any applicable provision of the Uniform Code or Energy Code shall remain exposed until such work shall have been brought into compliance with all applicable provisions of the Uniform Code and the Energy Code, reinspected, and found satisfactory as completed.
- D. Fee. The fee specified in or determined in accordance with the provisions set forth in § 78-16, Fees, of this chapter must be paid prior to or at the time of each inspection performed pursuant to this section.

§ 78-6. Stop-work orders.

- A. Authority to issue. The Code Enforcement Officer is authorized to issue stop-work orders pursuant to this section. The Code Enforcement Officer shall issue a stop-work order to halt:
- (1) Any work that is determined by the Code Enforcement Officer to be contrary to any applicable provision of the Uniform Code or Energy Code, the Zoning Code or any other general or local laws, ordinances, rules or regulations without regard to whether such work is or is not work for which a building permit is required, and without regard to whether a building permit has or has not been issued for such work; or
 - (2) Any work that is being conducted in a dangerous or unsafe manner in the opinion of the Code Enforcement Officer, without regard to whether such work is or is not work for which a building permit is required, and without regard to whether a building permit has or has not been issued for such work; or
 - (3) Any work for which a building permit is required which is being performed without the required building permit, or under a building permit that has become invalid, has expired, or has been suspended or revoked.
- B. Content of stop-work orders. Stop-work orders shall be in writing, be dated and signed by the Code Enforcement Officer, state the reason or reasons for issuance, and, if applicable, state the conditions which must be satisfied before work will be permitted to resume.
- C. Service of stop-work orders. The Code Enforcement Officer shall cause the stop-work order, or a copy thereof, to be served on the owner of the affected property (and, if the owner is not the permit holder, on the permit holder) personally or by registered or certified mail shall be

sufficient if addressed to the address set forth in the building permit application. The Code Enforcement Officer shall be permitted, but not required, to cause the stop-work order, or a copy thereof, to be served on any new applicant, owner, builder, architect, tenant, contractor, subcontractor, construction superintendent, or their agents, or any other person taking part or assisting in work affected by the stop-work order, personally or by registered mail or certified mail; provided, however, that failure to serve any person mentioned in this sentence shall not affect the efficacy of the stop-work order.

- D. Effect of stop-work order. Upon the issuance of a stop-work order, the owner of the affected property, the permit holder and any other person performing, taking part in or assisting in the work shall immediately cease all work which is the subject of the stop-work order.
- E. Remedy not exclusive. The issuance of a stop-work order shall not be the exclusive remedy available to address any event described in Subsection A of this section, and the authority to issue a stop-work order shall be in addition to, and not in substitution for or limitation of, the right and authority to pursue any other remedy or impose any other penalty under § 78-15, Enforcement; penalties for offenses, of this chapter or under any other applicable local law or state law. Any such other remedy or penalty may be pursued at any time, whether prior to, at the time of, or after the issuance of a stop-work order.

§ 78-7. Certificates of occupancy.

- A. Certificates of occupancy required. A certificate of occupancy shall be required for any work which is the subject of a building permit and for all structures, buildings, or portions thereof which are converted from one use or occupancy classification or subclassification to another. Permission to use or occupy a building or structure, or portion thereof, for which a building permit

The Code Enforcement Officer shall issue a certificate of occupancy if the work which was the subject of the building permit was completed in accordance with all applicable provisions of the Uniform Code and Energy Code, the Zoning Code and other general and local laws, ordinances, rules and regulations, and, if applicable, that the structure, building or portion thereof that was converted from one use or occupancy classification or subclassification to another complies with all applicable provisions of the Uniform Code and Energy Code. The Code Enforcement Officer or an inspector authorized by the Code Enforcement Officer shall inspect the building, structure or work prior to the issuance of a certificate of occupancy. In addition, where applicable, the following documents, prepared in accordance with the provisions of the Uniform Code by such person or persons as may be designated by or otherwise acceptable to the Code Enforcement Officer, at the expense of the applicant for the certificate of occupancy, shall be provided to the Code Enforcement Officer prior to the issuance of the certificate of occupancy:

- D. Temporary certificate. The Code Enforcement Officer shall be permitted to issue a temporary certificate allowing the temporary occupancy of a building or structure, or a portion thereof, prior to completion of the work which is the subject of a building permit. However, in no event shall the Code Enforcement Officer issue a temporary certificate unless the Code Enforcement Officer determines that the building or structure, or the portion thereof covered by the temporary certificate, may be occupied safely, that any fire- and smoke-detecting or fire protection equipment which has been installed is operational, and that all required means of egress from the building or structure have been provided. The Code Enforcement Officer may include in a temporary certificate such terms and conditions as he or she deems necessary or appropriate to ensure safety or to further the purposes and intent of the Uniform Code. A temporary certificate shall be effective for a period of time, not to exceed six months, which shall be determined by the Code Enforcement Officer and specified in the temporary certificate.  - (2) Any person who proposes to undertake any activity or to operate any type of building listed in this Subsection A shall be required to obtain an operating permit prior to commencing such activity or operation.
- B. Applications for operating permits. An application for an operating permit shall be in writing on a form provided by or otherwise acceptable to the Code Enforcement Officer. Such application shall include such information as the Code Enforcement Officer deems sufficient to permit a

determination by the Code Enforcement Officer that quantities, materials, and activities conform to the requirements of the Uniform Code. If the Code Enforcement Officer determines that tests or reports are necessary to verify conformance, such tests or reports shall be performed or provided by such person or persons as may be designated by or otherwise acceptable to the Code Enforcement Officer, at the expense of the applicant.

- C. Inspections. The Code Enforcement Officer or an inspector authorized by the Code Enforcement Officer shall inspect the subject premises prior to the issuance of an operating permit.
- D. Multiple activities. In any circumstance in which more than one activity listed in Subsection A of this section is to be conducted at a location, the Code Enforcement Officer may require a separate operating permit for each such activity, or the Code Enforcement Officer may, in his or her discretion, issue a single operating permit to apply to all such activities.

- (1) Firesafety and property maintenance inspections of buildings or structures which contain an area of public assembly shall be performed at least once every 12 months.
 - (2) Firesafety and property maintenance inspections of buildings or structures being occupied as dormitories shall be performed at least once every 12 months.

- C. Other inspections. Nothing in this section or in any other provision of this chapter shall supersede, limit or impair the powers, duties and responsibilities of the New York State Office of Fire Prevention and Control ("OFPC") and the New York State Fire Administrator under Executive Law § 156-e and Education Law § 807-b.
- D. Fee. The fee specified in or determined in accordance with the provisions set forth in § 78-16, Fees, of this chapter must be paid prior to or at the time of each inspection performed pursuant to this section. This subsection shall not apply to inspections performed by OFPC.

§ 78-12. Complaints.

The Code Enforcement Officer shall review and investigate complaints which allege or assert the existence of conditions or activities that fail to comply with the Uniform Code, the Energy Code, this chapter, or any other local law, ordinance, rule or regulation adopted for administration and enforcement of the Uniform Code or the Energy Code or other local law, ordinance, rule or regulation. The process for responding to a complaint shall include such of the following steps as the Code Enforcement Officer may deem to be appropriate:

§ 78-14. Program review and reporting.
